MECHANICAL ENGINEER WANTED FOR GROWING ROBOTICS COMPANY

Would you like to work with development and implementation of advanced automation solutions, as part of our professionally competent and committed team? Then Technicon may be the right place for you!

We are looking for a skilled and dedicated Mechanical Engineer to join our team. You will be part of a dynamic and innovative environment, where the road from design to execution is short.

About Technicon A/S

Technicon A/S is a leading company in automation solutions and robotic systems, located in Hobro, Denmark. We provide advanced and flexible automation solutions to a wide range of industries, such as pharmaceuticals, food, and metal industries. Our mission is to make flexible automation accessible to all types of businesses and help the companies achieve their goals of e.g. cost reduction, higher quality, better health and safety, insourcing, warm hands, green transition etc.

Your responsibilities will be:

- Design and develop mechanical systems and components for automation solutions within Industry 4.0
- Collaborate with software and electrical engineers to ensure successful integrated solutions
- Prepare technical drawings and documentation
- Test and troubleshoot prototypes and finished systems

WHO WE ARE?

Technicon is run by a strong team of curious employees. We are able to deliver the best robot solutions, as we know that we are strongest when the employees' skills are properly utilized. Our customers are both large and small. We specialize in creating user-friendly robot solutions, and work from the understanding that the interaction between robots and people creates the best possible efficiency.

Your qualifications are:

- A degree within Mechanical Engineering or equivalent
- Experience with CAD software (e.g., Inventor, SolidWorks)
- Strong mechanical sense - The ability to see and understand how your 3D model will work in practice
- Excellent analytical and problem-solving abilities
- Fluent in Danish and English, both written and spoken
- Knowledge of automation and robotics technology or simulation is an advantage

We offer:

- An exciting and challenging position in a growing innovative company
- Great opportunities for professional and personal development.
- A strong social community and informal work atmosphere.
- Full time job with flexible work hours.

Are you interested in applying for the job?

We look forward to receiving your application and associated CV as soon as possible. Applications and CVs are sent via jobindex or e-mail.

We regularly call in candidates for interviews. If you have any questions about the position, you are welcome to contact our HR Manager Lars Dahl Vester: Phone +45 29161012 or e-mail Application@technicon.dk

We look forward to hearing from you!
